

ELTHERM AD24

FIRST ROOM THERMOSTATS

with analog programmed clock and digital display that provides room temperatures

FIRST®

2-POINT CONTROL 1 / 0

FIRŠT ELTHERM AD24, are room thermostats designed for radiator, convector or fan heating in domestic or light commercial premises.

- Room thermostat with analog clock, simple use and easy installation.
- Digital display (shows the temperature of the room)
- Manual settings for constant heating temperature

OPERATION

Eltherm AD24 room thermostat is designed for radiator, convector or fan heating in domestic or light commercial premises. It may also be used for zone temperature controlling in large buildings. Temperature control is based on the measurement of room temperature. Eltherm AD24 room thermostat with digital display provides time-programmed control of room temperatures.

MAINTENANCE

Room thermostat ELTHERM AD24 requires battery change on every 2 years.

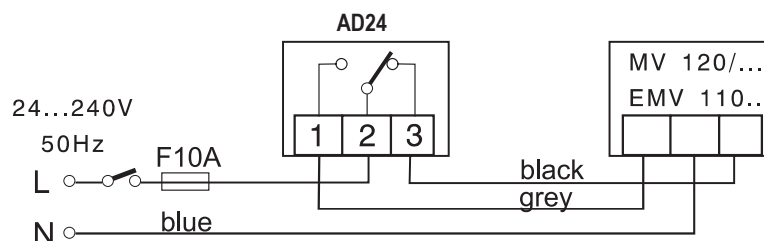

TECHNICAL DATA: ROOM THERMOSTAT

Battery power supply: 3x AA (LR6 - alkaline)
 Output: relay SPDT
 Output relay rating: 1(1)A, 230VAC, 50Hz
 Room temperature setting range: 5 - 30°C
 Hysteresis of thermostat: +/-1K
 Weight: 0,3kg
 Four modes of operation: - protection against freezing
 - non-stop working on lower - eco. temp.
 - non-stop working on higher - comfort temp.
 - automatic working according set program

COMPATIBILITY

Room thermostat ELTHERM AD24 is compatible with actuators series EMV 110, S9000, UNI 3P, UNI D2P, ROTODIVERT and MV 120 actuators.

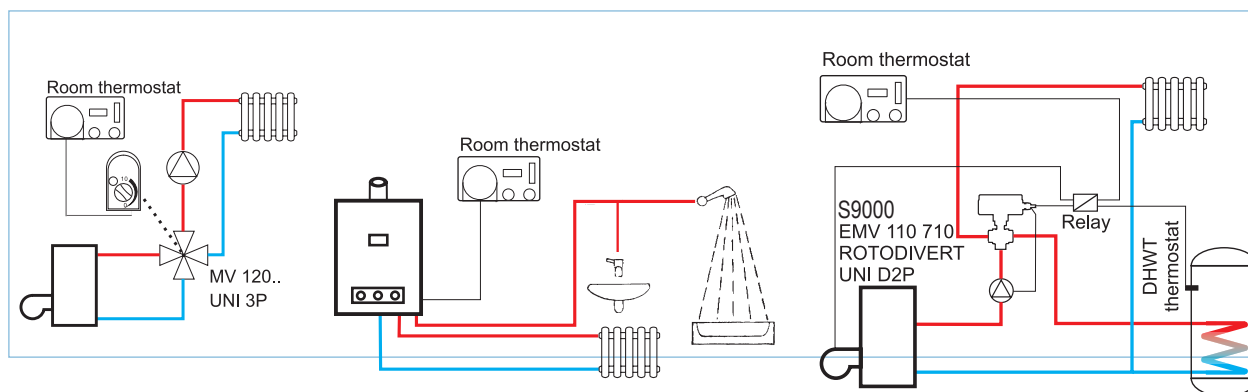

CODE AND ELECTRICAL CONNECTION

ELTHERM AD24, room thermostat

Code	Type	Description
27099	ELTHERM AD24	digital thermostat with a weekly timer
